

# Lowest Net Cost Formulary

Effective April 1, 2023

Your prescription benefit provides you and your doctor with many choices. Understanding them will help you make informed health care decisions. It will also enable you to ask your doctor or pharmacist the right questions about your medication needs. We want to make sure you have the information you need to make the best choice for you.

## What is a formulary?

A **formulary** is a list of prescription medications that are covered by your plan. The drugs on this list are chosen for their clinical value and cost-effectiveness by an independent panel of physicians and pharmacists.

With our formulary, you and your doctor have the freedom to choose the medication that works best for you. Since there may be more than one drug available for your medical condition, we encourage you to use generic and preferred brand-name drugs whenever possible to help manage your prescription costs.

**NOTE: This formulary drug list is subject to change at any time during the year without prior notice to members or physicians.** For the most current formulary information, please visit our website at the address indicated on your member ID card.

## Should I use generic drugs?

Absolutely! **Generic drugs** become available when patents expire on brand-name drugs. They contain the same active ingredients as brand drugs but are not manufactured under a brand name or trademark. The color and shape of the generic drug may be different from its brand-name counterpart, but the active ingredients are the same for both. Generic drugs must meet the same U.S. Food and Drug Administration (FDA) quality standards as the brand-name drugs.

## What is a three-tier benefit?

*Most employers offer a three-tier benefit plan. Refer to your group benefit booklet to see if this applies to you.*

Medications in a **three-tier benefit** structure are divided into three tiers: Tier 1, Tier 2 and Tier 3. Each tier is assigned a copay or coinsurance amount, which is the amount you pay when you receive a prescription. Refer to your benefit document to find the amounts that apply to you.

**Tier 1** drugs are generic drugs. Tier 1 drugs in this document are in all lowercase letters. For the lowest out-of-pocket expense, you should always consider Tier 1 drugs if you and your doctor decide they are appropriate for you.

**Tier 2** drugs are preferred brand-name drugs. Tier 2 drugs in this document are listed after the Tier 1 drugs. Consider Tier 2 drugs if no Tier 1 drug is available to treat your condition.

**Tier 3** drugs are nonpreferred and will usually cost you more. If you are using a Tier 3 drug, talk to your doctor about Tier 1 and 2 drugs that may be appropriate for you. **NOTE:** When a generic becomes available, most of the time the brand-name drug will automatically move to Tier 3.

If a drug is noted as **Tier 0**, that means it is considered a preventive drug under health care reform, and your plan covers it at no cost to you, in most cases. Specialty drugs are indicated as **Tier 4**.

## What is a specialty drug benefit?

A **specialty drug** benefit requires that you pay a different amount (copay) for specialty drugs, no matter what the status is of your drug on our formulary drug list. If you have a specialty drug benefit, you will pay the specialty drug copay or coinsurance under your plan for specialty drugs, whether you receive a generic, preferred name-brand or nonpreferred brand drug. Refer to your benefit document to find the amounts that apply to you for specialty drugs.

## What if my drug is not listed on this formulary drug list?

This is a listing of the most commonly prescribed drugs within certain categories. If your drug is not listed, it may be that:

1. Your drug is a generic and all generics are considered preferred drugs.
2. Your drug is not a preferred drug and is available at the highest copay or coinsurance.
3. Your drug is preferred but is not included in this brochure. For an alphabetical listing of commonly prescribed generic and preferred brand-name drugs, visit the website indicated on your member ID card.
4. There are some drugs for which your doctor may need to request prior authorization from us before you can fill the prescription. This is to make sure your benefit plan covers the drugs. Visit the website indicated on your member ID card for more details.

5. Your drug is available over the counter or is excluded from coverage. For many conditions, an over-the-counter (OTC) medication may be the most appropriate treatment. Talk to your doctor about over-the-counter alternatives. They may be a good choice for you and may cost you less.

**Keep in mind this list is subject to change.** Your benefit document defines your actual benefit and may exclude coverage for certain drugs listed in this booklet. Please see your plan's website for a list of excluded drugs.

Some drugs have quantity limits on them. This means you only can receive a limited amount at one time or during a specific time period. Your pharmacist can tell you if your benefit plan applies any limitations to your prescriptions.

Pharmacy law requires a valid prescription for the purchase of needles and syringes in certain states. If covered under the pharmacy benefit, OTC products require a valid prescription.

## Drug list key

In this drug list, some medications are noted with letters next to them to help you see which ones may have coverage requirements or limits. Your benefit plan decides how these medications may be covered.

- AL** **Age limit** — Medication has minimum or maximum age requirement for coverage.
- OTC** **Over-the-counter** drug
- PA** **Prior authorization** — Your doctor is required to provide more information to determine coverage.
- PV1** **Preventive drug** — \$0 copay under health care reform
- PV2** **Preventive drug** — \$0 copay under health care reform for members who meet certain conditions.
- PV3** **Preventive drug (high cholesterol)** — \$0 copay under health care reform only for members ages 40–75.
- QL** **Quantity limit** — Medication may be limited to a certain quantity.
- SP** **Specialty medication** — Medication is designated as specialty.
- ST** **Step therapy** — Patient must try lower-cost medication(s) before a higher-cost medication can be covered.

## Non-Discrimination Statement and Foreign Language Access

We do not discriminate on the basis of race, color, national origin, disability, age, sex, gender identity, sexual orientation or health status in our health plans, when we enroll members or provide benefits.

If you or someone you're assisting is disabled and needs interpretation assistance, help is available at the contact number posted on our website or listed in the materials included with this notice (TDD: 711).

Free language interpretation support is available for those who cannot read or speak English by calling one of the appropriate numbers listed below.

If you think we have not provided these services or have discriminated in any way, you can file a grievance by emailing [contact@hcrcompliance.com](mailto:contact@hcrcompliance.com) or by calling our Compliance area at 1-800-832-9686 or the U.S. Department of Health and Human Services, Office for Civil Rights at 1-800-368-1019 or 1-800-537-7697 (TDD).
