BlueCross Rx ValueSM

2024 Formulary

(List of Covered Drugs)

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN

HPMS Approved Formulary File Submission ID 00024213, Version Number 13

This formulary was updated on 06/03/2024 (effective 07/01/2024). For more recent information or other questions, please contact BlueCross Rx Value at 1-888-645-6025, or, for TTY users 711, 8 a.m. to 8 p.m., Eastern Time, Monday through Friday. Our automated telephone system handles calls received after 8 p.m. and on Saturdays, Sundays and holidays. From October 1 to March 31, we are available 8 a.m. to 8 p.m. Eastern Time, seven days a week. Or visit www.SCBluesMedAdvantage.com.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means BlueCross BlueShield of South Carolina. When it refers to “plan” or “our plan,” it means BlueCross Rx Value.

This document includes a list of the drugs (formulary) for our plan which is current as of 06/03/2024 (effective 07/01/2024). For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year.

What is the BlueCross Rx Value Formulary?

A formulary is a list of covered drugs selected by our plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. BlueCross Rx Value will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a BlueCross Rx Value network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but BlueCross Rx Value may add or remove drugs on the Drug List during the year, move them to different cost sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes. We must follow the Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the BlueCross Rx Value Formulary?”

Drugs removed from the market. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand name drug currently on the formulary or add new restrictions to the brand name drug or move it to a different cost sharing

tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

- If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the BlueCross Rx Value Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 06/03/2024 (effective 07/01/2024). To get updated information about the drugs covered by BlueCross Rx Value, please contact us. Our contact information appears on the front and back cover pages. We will update our printed formularies each month, and they will be available on www.SCBluesMedAdvantage.com.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular. If you know what your drug is used for, look for the category name in the list that begins on page number 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 94. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

BlueCross Rx Value covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** BlueCross Rx Value requires you [or your physician] to get prior authorization for certain drugs. This means that you will need to get approval from BlueCross Rx Value before you fill your prescriptions. If you don't get approval, BlueCross Rx Value may not cover the drug.
- **Quantity Limits:** For certain drugs, BlueCross Rx Value limits the amount of the drug that BlueCross Rx Value will cover. For example, BlueCross Rx Value provides 30 tablets per 30 days for CABLIVI. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, BlueCross Rx Value requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, BlueCross Rx Value may not cover Drug B unless you try Drug A first. If Drug A does not work for you, BlueCross Rx Value will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask BlueCross Rx Value to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the BlueCross Rx Value's formulary?" on page v for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that BlueCross Rx Value does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by BlueCross Rx Value. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by BlueCross Rx Value.
- You can ask BlueCross Rx Value to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the BlueCross Rx Value Formulary?

You can ask BlueCross Rx Value to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost sharing level, and you would not be able to ask us to provide the drug at a lower cost sharing level.
- You can ask us to cover a formulary drug at a lower cost sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.

- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, BlueCross Rx Value will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, or utilization restriction exception. **When you request a formulary or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

During a level-of-care change in which the member changes from one treatment setting to another, drugs may be prescribed that are not covered by the plan. If this happens, you and your doctor must use the plan's coverage determination request process. To prevent a gap in care when you are discharged, you may get a full outpatient supply that will allow therapy to continue once the limited discharge supply is gone. This outpatient supply is available before discharge from a Medicare Part A stay. When you are admitted to or discharged from an LTC facility, you may not have access to the drugs you were previously given. You may, however, get a refill upon admission or discharge.

For more information

For more detailed information about your BlueCross Rx Value prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about BlueCross Rx Value, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit www.medicare.gov.

BlueCross Rx Value's Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by BlueCross Rx Value. If you have trouble finding your drug in the list, turn to the Index that begins on page 94.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., JANUVIA) and generic drugs are listed in lower-case italics (e.g., *lisinopril*).

The information in the Requirements/Limits column tells you if BlueCross Rx Value has any special requirements for coverage of your drug.

The information in the Drug Tier column tells you what tier each drug is in. The table below describes your share of the cost when you receive a covered Part D prescription drug for a 30-day or 90-day supply from a standard in-network retail pharmacy, or a 90-day supply through a standard mail-order pharmacy.

BlueCross Rx Value \$480 Annual Deductible on Tiers 3, 4 and 5 Only

Drug Tiers and Tier Names	30-Day Preferred Retail Supply	30-Day Standard Retail Supply	90-Day Preferred Retail Supply	90-Day Standard Retail Supply	90-Day Standard Mail Order
Tier 1: Preferred Generic	\$8 copay	\$12 copay	\$24 Copay	\$36 copay	\$20 copay
Tier 2: Generic	\$18 copay	\$20 copay	\$54 copay	\$60 copay	\$45 copay
Tier 3: Preferred Brand	\$42 copay	\$47 copay	\$126 copay	\$141 copay	\$105 copay
Tier 3: Covered Insulin	\$35 Copay	\$35 copay	\$105 copay	\$105 copay	\$105 copay
Tier 4: Non-Preferred Drug	45% coinsurance	46% coinsurance	45% coinsurance	46% coinsurance	45% coinsurance
Tier 5: Specialty Tier	25% coinsurance	25% coinsurance	Not Covered	Not Covered	Not Covered

This information is not a complete description of benefits. Contact the plan for more information. Limitations, copayments, and restrictions may apply. Benefits, premiums and copayments/coinsurance may change on January 1 of each year.

LPOP	Lozenge on a Handle	TBSO	Tablet Soluble
NDS	Non-Extended Day Supply	TROC	Troche
ST NSO	Step Therapy for New Starts Only	PA NSO	Prior Authorization for New Starts Only

Drug Tiers

Every drug on the plan's Drug List is in one of five cost sharing tiers. In general, the higher the cost-sharing tier, the higher your cost for the drug:

- Cost sharing Tier 1: Preferred Generic – Tier 1 is the lowest tier and includes preferred generic drugs.
- Cost sharing Tier 2: Generic – Tier 2 includes generic drugs.
- Cost sharing Tier 3: Preferred Brand – Tier 3 includes preferred brand drugs and non-preferred generic drugs.
- Cost sharing Tier 4: Non-Preferred Drug – Tier 4 includes non-preferred brand drugs and non-preferred generic drugs.
- Cost sharing Tier 5: Specialty Tier – Tier 5 is the highest tier. It contains very high-cost brand and generic drugs that may require special handling and/or close monitoring.

Requirements/Limits Key

B/D = Drug that may be covered under Medicare Part B or Medicare Part D, depending on the indication, where and how the drug was administered and by whom. The plan must first conduct a review to determine the correct coverage (B or D).

PA = Prior Authorization

QL = Quantity Limits

NDS = Non-Extended Day Supply. This prescription drug is not available for an extended days' supply.

ST = Step Therapy

LA = Limited Access Drug. This prescription may be available only at certain pharmacies. For more information, consult your Pharmacy Directory or call Customer Service at 1-888-645-6025, 8 a.m. to 8 p.m. Eastern Time, Monday through Friday. Our automated telephone system handles calls received after 8 p.m. and on Saturdays, Sundays and holidays. From October 1 to March 31, we are available 8 a.m. to 8 p.m. Eastern Time, seven days a week. TTY users should call 711.
